18	As I see clients in group situations, I tend to encourage clients to self refer, or discuss referral needs with main treating health professional ,to ensure good case management and communication	2/24/2016 8:55 AM
19	HIP team refer internally and externally on a daily basis and follow the CHPCP SCTT process as best practice.	2/24/2016 8:30 AM
20	HIP process is working really well as far as I am aware.	2/24/2016 8:01 AM
21	As Physios we get a number of self referrals. An efficient and timely way of obtaining a current client Health Summary from the GP would be valuable.	2/24/2016 7:48 AM
22	What ever the referral pathway it must be kept simple and user friendly - email, software message system	2/24/2016 7:41 AM
